# THE SITUATION CRITICAL

A BITTER WAR BETWEEN TRUNK LINES SEEMS INEVITABLE.

Legality of Rock Island Inflation May Be Tested-Train Rules to Be Fewer and More Explicit.

New York Commercial. Unless a marked change takes place in the policy of the Pennsylvania and Baltimore & Ohio with respect to the present status of the grain rate situation there will be danger of an open rupture with the New York lines, followed by trouble more serious than has been known in a long time. This feeling originated from the Pennsylvania and the Baltimore & Ohio giving arbitrary notice of the application of a differential from Lake Erie ports to Philadelphia and Baltimore. They claimed the right to do this on the ground that it was simply taking advantage of a privilege which had been only temporarily waived. Their competitors are disposed to question this point and in any event they insist that the course pursued should not have been

adopted without conference with other trunk lines concerned. The serious feature of this trouble lies in the fact that in the absence of any qualifying clause the Lehigh Valley construed the notice mentioned as applying to Buffalo as well as all other lake ports, but particularly Fairport and Erie. With the stronger position obtained at Buffalo, the Lehigh felt that its interests were at stake, as it has a line to Philadelphia in connection

with the Reading. In order to protect this line, it met the Pennsylvania and Baltimore & Ohio rate. The result was to compel the New York Central to follow suit for the benefit of both Boston and New York. The situation at this turn of affairs became very much strained and has never since improved, as all lines leading to New York also had to meet the unsettled condition. It is contended that the Pennsylvania and Baltimore roads, which are responsible for the disturbance, acted unfairly and had no right to force down "at and last" rates to New York, especially at a period when the absence of this class of traffic simply aggravated the spirit provoked by the reduction in rates. It was arranged to hold a meeting Wednesday of the Trunk Line Association grain committee to discuss the subject, an invitation being extended to the Pennsylvania and the Baltimore & Ohio to be represented. The meeting was held, but neither of those roads sent a representative or submitted an explana-

#### tion as to why they did not do so. Rock Island Reorganization.

Governor Cummins, of Iowa, announced yesterday that he is investigating the re- is confident it can distance the Mississippi cent reorganization of the Chicago, Rock Island & Pacific Railway Company with a view of ascertaining whether the organ- Wheeling & Lake Erie. Eight passenger ization is in all respects in harmony with engines, weighing 134,000; twenty consolithe laws of the State. "It is my opinion," said Governor Cummins, in speaking engines. The order for all was placed with of the matter, "that the reorganization is the Baldwin locomotive works, out of harmony with the Iowa laws. I may be mistaken, but if I have read the press dispatches aright there has been such an inflation of capital stock here as is not contemplated by the laws of this State. It is true that there is no limit placed upon the capitalization of such a company, but there is a limit upon the indebtedness of such corporations and there must costs, I will expose at public sale to the highest | be something shown to the credit of the stockholders of such a company which will represent the difference in increased capitalization. It is my understanding that under the Rock Island plans of readjustment each holder of one hundred shares of common stock is to receive a \$10,000 bond, secured by a collateral trust mort-Indiana: Lots numbered eighteen (18) and nine- gage upon the present Rock Island stock. In addition to this they receive in the Rock Island company of New Jersey seventy shares in a preferred stock and one hundred shares in common stock, the preferred stock being preferred to the extent of 4 per cent, from the earnings of each year for a period of seven years, when it becomes preferred for 5 per cent. for an additional period of seven years, after Petriken and H. J. Cook, all of Parkerswhich it is preferred. I believe, to the ex- burg. tent of 6 per cent, per annum. This is as read the plans in the newspapers. Now the capitalization of the old Rock Island company was but \$75,000,000, while the new company located in Iowa declares a capital of \$125,000 (00. There must be something, to my mind, to show more than is indicated in the above plan, that the increased capitalization is not an excesday of September, 1902, at the office of Hawkins | sive inflation, or that the stock which has & Smith, Rooms 300-308 Lemcke building, in the been issued is not watered. Under the city of Indianapolis, Marion county, Indiana, Hubbard bill, which I vetoed last winter, it would have been possible for this new company to organize without any difficulty, as all limitations to the indebtedness of such corporations were practically removed by that act in its original form. Davidson's addition to the city of Indianapolis. Under the present law there were limita-

"I am not prepared to state that the lowa law has any penalties which could depositing these stocks has been extended be inflicted for violation of such statutes, but I am not willing to sit by and allow a proposition of such enormous size to their purchase in cash, only in bonds. The amalgamate without inquiring into the method which it employs and their conformity to the State laws. I am convinced that such a centralization of capital and and no extension is given. power is dangerous, to say the least, and cannot be encouraged without threatening business interests. Such a centralization of capital means that there may follew an explosion which, when it comes, is likely not only to affect one, but many interests There is reason, therefore, why have felt it my duty to inquire into this present case in Iowa.

An officer of the Rock Island company at New York said yesterday: "I do not believe that there is any point at which our incorporation in the State of Iowa can be attacked. The incorporation pa-

pers were drawn up with due regard for the laws of that State and we believe that they will hold in law.

### Train Dispatching.

In commenting on the increased facilities for handling trains now being introduced by the leading roads of the country S. H. Brown, train dispatcher of the Chicago & Alton road, says: "The train dispatcher of the future will be provided with a reliable train wire. It will be inexcusable to leave the wire open. All business except train business and movements incidental thereto will be excluded from it. No signal will be superior to that of the dispatcher and his lieutenants. Time tables will be for adverising purposes only. Train rules will be few and explicit. Each train will move so long as it is given clear signals without regard for other trains. No operator will give a clear signal until authorized by the dispatcher. In case of wire failure trains will move from block to block by direction of operators until communication is restored. Handling trains by the slow, cumbersome and unsafe method of carbon and manifold orders must become obso lete."

### Rumored Offer to Mr. Daly.

It is stated that Charles F. Daly, former general passenger agent of the Lake Erie & Western, now first assistant general passenger agent of the Lake Shore, has been offered the position of general passenger agent of the Chicago, Burlington & Quincy and has the offer under considera-

Personal, Local and General Notes. R. M. Jenks, with the Vanderbilt lines in this city, left last night for Bass lake on a ten days' vacation.

O. L. Winslow has been appointed commercial agent of the Big Four at Grand Rapids, Mich., vice H. U. Matthews, deceased.

Frank Van Deusen, chief assistant general passenger agent of the Pennsylvania prospect could hardly be more promising, lines west, has returned from his annual vacation. H. G. Stiles, general agent of the Cincinnati, Hamilton & Dayton, will leave on Monday to spend a couple of weeks in New England, the home of his childhood. Six important roads are interested in a

plan to concentrate at Chicago their in-

terests in the Chicago Terminal property.

None of these lines now uses the terminal.

Frank Siscoe, an engineer on the Chicago & Northwestern, who has just been placed on the company's pension list, has run for ter shape. Prices are firmer in tone. With forty-two consecutive years, covering dur- this leather is more active, although this ing the period 1,402 297 miles. On Wednesday Train 17 on the Pennsyl- groceries continue to move well and in vania was hauled from Morrisville to Har- large volumes, as is usually the case durrisburg. 128 miles, in 126 minutes, with ing harvest time. Dry-goods houses are as

and taking water from track tanks. George W Weedon, city passenger agent at Louisville of the Pennsylvania, yesterday became traveling passenger agent, with headquarters at St Paul Mr Weedon has been in railroad service sixteen years. T. J. Kiser has been appointed traveling freight agent of the Big Four, reporting to Assistant General Freight Agent Keavey. article which carried a steady tone. In-S. H. Thomas succeeds Mr. Kiser as live stock agent at the Indianapolis stockyards. L. M. Allen, who yesterday became general passenger agent of the Chicago, Rock

During June the relief fund of the Pennsylvania east of Pittsburg paid out \$75,000 for death benefits and in disbursements on account of sickness and accident. Since organized in 1886 it has paid to the members The directors of the Pennsylvania have decided to abolish all grade crossings at every important town on the main line between Philadelphia and Pittsburg. Work of this character to cost \$1,000,000 is already mixed, 624c; No. 4 white mixed, 584@604c

Island & Pacific lines east of the Missouri

river, has been with the road since 1863, be-

ginning work in the car accountant's office.

The Pennsylvania Company has taken out permits at Fort Wayne to erect additional shops, to cost \$200,000. When the additions are completed several hundred more men will be employed, swelling the total to about 1.800. H D Hunter, general yardmaster of the Missouri Pacific at Jefferson City, was yesterday promoted to be superintendent of

under way

headquarters at Kansas City, succeeding E. J. Moore, resigned. The Canadian Pacific has put in service a and on both old and new hay. The wagon gasoline motor car for the use of tourists in the Rockies. The car climbs the mountain grades with east and at a speed of thirty miles an hour. The sides are open, but are provided with curtains as a protection against sun and rain.

Bids will be asked next week by the Bal-

timore & Ohio for its new lowgrade road

the K & A. division of the road, with

from Harper's Ferry around Martinsburg to Wilson, to connect with the lowgrade cut-off now building from Wilson to Cherry Run. The line will be twenty-eight miles in length and the work will be unusually heavy. A. L. Ellet, traveling passenger agent of the Chesapeake & Ohio, was in the city vesterday. He says the putting on of additional local trains and taking stops off of

the fast through trains over the Chesapeake & Ohio has greatly increased their through travel and also better accommodates local business. General passenger agents of Central Traffic lines are receiving passes over the Grand Trunk road to the annual meeting of the American Association of General Ticket and Passenger Agents, which settles the question of the meeting being held at Portland, Me., in September despite the antipass agreement of the trunk lines. Engineers on the Lake Shore road are making a series of tests with heavy loco-

time down to 127 minutes. One stretch of sixteen miles was covered in fifteen minutes, and frequently a mile was made in fifty seconds. The Illinois Central, with the completion of sixty-three miles of track between Brook Haven and Hammond, La., will have a complete double track from Chicago to New Orleans, with a maximum grade of twentysix feet to the mile, and the management

motives. No. 650, a new one, on Monday,

hauled twelve heavy cars 110 miles in 142

minutes, making three stops, cutting the

river on cheap grain rates. Specifications have been announced for the large order of locomotives for the dated compound freight engines, to weigh 185,000 each, and four six-wheeled switching

The motors ordered for the belt line road of the Baltimore & Ohio to haul trains from red cherries, %60@\$1; strawberries, \$5@90c; sal-Camden station to Guilford will weigh 150 tons each and will cost \$35,000 each. The electric machines are expected to haul 1.500 tons exclusive of the motor, up the 64-feetto-the-mile grade. The steam locomotives now haul 750 tons per train up this grade. A personally conducted excursion to the Pacific coast will leave New York to-day over the Pennsylvania, stopping at Philadelphia and Baltimore, and on the trip will make stops at Chicago, Denver and Salt Lake City, and five days will be spent in San Francisco. The return will be made by Portland, Ore., over the Canadian Pa- floor or carried in cellar. From wagon, 25c per cific. The excursion covers thirty days.

road Company of Parkersburg, W. Va., was chartered yesterday, to build a railroad in Wood county, West Virginia, and in Washington county, Ohio, and to construct bridges across the Ohio and Little Kanawha rivers. Capital, \$100,000. The incorporators are: J. T. Blair, Greenville, Pa.; V. B. Archer, H. S. Lampman, jr., B. R. As a result of the recent promotion of John Sebastian and L. M. Allen respectively. To the Editor of the Indianapolis Journal: Will Mr. Griggs, "the gentleman from price in Chicago and other Eastern cities, than in Florida? The writer had an extree in an orange grove, opposite Palatka, Fla., than would have been necessary in

same class of lumber sells for a higher figure to the consumer in his State than is paid for the same in Indiana, freight added? Will Mr. Griggs, "the wise man of the South." explain why the merchants of the city of Savannah, Ga., at times in the year, sell merchandise, manufactured in the New England States, cheaper than it can be bought, regularly, in Boston? Would Mr. Griggs, the economic philosopher, advise the mill and factories close down and discharge their men a portion of the year, for fear of producing a surplus that would have to be dumped abroad? Does Mr. Griggs, the wonder of his age, recognize that there is such a thing as "supply and demand?" Would Mr. Griggs, the truthful, to gain a political point, tell a lie and stick to it, or is he simply ignorant in regard to the matters of which he writes in his campaign

circular letter? Would Mr. Griggs, the hopeful, advise that all duties be removed from cotton and grain because a few speculators, occasionally, inaugurate a corner and force prices Would Mr. Griggs, the statesman, advocate taking the duty off all commodities, in the manufacture of which a small percentage, by comparison, is made by a so-called trusts? In other words, cut down a healthy tree because of an apparent rotten branch?
